One complaint was filed with the region but by the time the inspector arrived there was no evidence of non-compliance.

Request Referred To: _____

Brief Description of Response:

I told Ms. Wichmann that a deficiency letter was being sent to the company and based on their reply an amendment to the permit may be required. If an amendment was required, I would visit the plant and see if there were problems. We agreed that if an amendment was not required and there was only a renewal that there were limits to any changes we could ask the company to do.

Ms. Wichmann said the Senator would probably request a public meeting.
